

Single Story, 2,425 square feet

Nice built-in area for your media needs. Near a terrific fireplace.

These glass fronted cabinets are one of your standard choices. And the built-in wine rack is a great option.

Did we say this was our smallest home? You couldn't tell by the bedrooms.

Love the feel of the landscaping? We have great packages that can be finished when your home is.

Don't forget you'll have a garage for three cars. Who says one of them can't be a boat?

Plenty of volume here. And you can add a fireplace for even more drama.
