

Malibu

Plan Four — 3,267 square feet

Two Story, 5 Bedrooms, 4 Baths, 3 Car Garage
Optional Den, Loft

You may want to consider adding a den for relaxation as shown in our model. Or for a larger family, you could opt for the included 5th Bedroom where everyone can have their own room.

Transform this bedroom into a multipurpose loft. The ideal place to watch TV, play games, or come together as a family.
